

# Solve Mite

## Type and composition:

Miticide contain 15% w/v Acequinocyl in the form suspension concentrate (SC).

## Mode of Action:

Miticide Active primarily by contact with some oral uptake.

## Advantage and properties:

**Solve Mite:** Miticide Active primarily by contact with some oral uptake, Solve mite shows efficacy on all mite life stages of susceptible mites.

**Solve Mite:** Incompatible with highly alkaline material and Fosetyl.

**Solve Mite:** None observed except in some varieties of strawberry and rose.

**Solve Mite:** Toxic if swallowed if inhaled or absorbed through skin, may cause allergic skin, cause moderate eye irritation. Very toxic to aquatic organism.

## Application rate:

Crops	Pests	Rate of application	PHI Days	Maximum Numbers of Application per year	Minimum Interval between Application (Day)
Legumes	Two spotted spider mite	20-14 ml	7	2	14
Strawberry	Mite, two spotted spider mite		3		21
Cherry	two spotted spider mite, European red mite		7		14
Citrus	Two spotted spider mite, European red mite, citrus red mite.		7		21
Melon, cucumber, muskmelon	Two spotted spider mite, broad mite.		3		21
Okra	Two spotted spider mite, broad mite.		3		21
apple, pear, quince loquat	European red mite, Two spotted spider mite,		14		21
Eggplant, pepper, tomato	Two spotted spider mite		3		21
Grape , Kiwi fruit	Two spotted spider mite		7		21
Tree nut	Two spotted spider mite		7		21
