

Tiffany

Type and composition:

Fungicide contain Pyraclostrobin 12.8% + Boscalid 25.2%
in the form water dispersible granule (WDG)

Mode of Action:

Fungicide in the form water dispersible granule (WDG) .

Fungicide with protectant, curative action has good residual activity
against target fungi.

Advantage and properties:

Tiffany:

Pyraclostrobin : protectant,curative and translaminar properties.

Boscalid: fungicide m with translaminar and acropetal movement
within the plant leaf, providing preventive and in some cases, curative
action. Inhibits spore germination, germ tube elongation and is also
effective on all other stage of fungal development

Application rate:

Main crops	Typical Pests	gm/20 liter	PHI* Days
Strawberry	Anthrachnose, Botrytis rot, leaf spot, Powdery mildew	25-30 gram	3
Broccoli, Cabbage, Cauliflower	Alternaria spot, Black leg, leaf spot, Powdery mildew, White leaf spot	15-20 gram	3
	Anthrachnose, White rust	25 gram	
	Downy mildew, Gray mold, Sclerotinia stem rot, Rhizoctonia rot		
Onion, garlic, leek	Botrytis blight	35 gram	7
	Botrytis rot		
	blotch and leaf blight	20-25 gram	
	Suppression Only: Downy mildew	15-25 gram	
Carrot	Alternaria spot, leaf spot, Powdery mildew, Suppression Only: root rot	25 gram	
Grapefruit, grapefruit, Kumquat, Lemon, Orange, mandarin,	Alternaria brown spot, Citrus black spot, Melanose, Scab	10-15 gram	3
Cucumber, Muskmelon, Watermelon, pumpkin, squash	Alternaria blight, leaf spot, Downy mildew, Powdery mildew,	22-25 gram	3
	Anthrachnose	15-25 gram	
Tomato	Anthrachnose, Septoria leaf spot, Early blight, Late blight, Powdery mildew, Botrytis mold, Black mold	20-35 gram	3
Eggplant, okra, pepper	Black mold, Early blight	15	3
Grapes, Kiwi	leaf spot, Anthracnose, Black rot, Downy mildew, Leaf blight, Powdery mildew, Ripe rot	10-20 gram	14
	Botrytis gray mold	25-30 gram	

Lettuce , parsley spinach	Alternaria spot, Anthracnose, leaf spot, Downy mildew, Powdery mildew, Rust White rust	15-20 gram	14
	Botrytis rot, Sclerotinia rot and blight	2-35 gram	
Apple, Quince, Pear, Loquat	Blotch, Apple and pear scab, Powdery mildew, White rot,spots, Suppression Only: rust	20-25 gram	3
Apricot;apricot, cherry, nectarine; peach; plum	Alternaria spot, Anthracnose, Blossom blight, Brown rot, Leaf spot, Powdery mildew, Ripe fruit rot, rust Scab Suppression Only: Leaf curl	15-20 gram	3
Radish , turnip	Alternaria spot, Leaf spot, Powdery mildew Suppression Only: root rot	10-15 gram	3
Bean,pea, Chickpea, Lentil, Broad bean	Alternaria leaf and pod spot Powdery and downy mildew, leaf spot, Rust	15-20 gram	21
